

India Performing Arts Society of Central Ohio

## *Vision Statement*

*To be a best-in-class institution fostering the musical spark and facilitating the development of musical sensibilities to build a generation of conscientious musicians and music-lovers for the furtherance of Indian Classical Music.*

*To that end, we will continuously strive to ensure that the educational experience for students as well as parents is exceptional and aim to foster a love of music among all whom we encounter.*

*We welcome all families without exclusion and commit ourselves to respect each and everyone regardless of their age, gender, race, caste, economic status, marital status, faith, or their national origin.*

*We will put our students' interests first in all that we do.*

*We will support parents and provide them information and tools to help their children work towards and achieve their goals in music and in life. We will help parents bring classical art forms into their homes.*

*We further commit ourselves to use planet resources wisely and respectfully, avoid waste and to actively take steps to reduce the harms we do to other life and to minimize the footprint we leave behind us. This environment is the only one we have. Let's do our best to keep it well and pass it along to those who come after us.*
